

IMMEDIATE OPENINGS FOR QUALIFIED AND MOTIVATED STRUCTURAL ENGINEERS

Come join us and take your career to the next level! You will have the opportunity to work on diverse and challenging projects in higher education, healthcare, labs, multifamily, and institutional sectors. We offer excellent compensation and benefits package including, for example, 401(k) plan with employer matching and Profit-Sharing, paid time off, health insurance, long term disability insurance etc. OLMM has hybrid work schedule and a nurturing and collaborative work environment that fosters collaboration, opportunity for growth, and career advancement. We promote diversity and encourage open communication.

OLMM (www.olmm.com) is a reputable and award-winning structural engineering firm with offices in San Francisco and Oakland. We have been providing resilient, high-performance, cost-effective and sustainable structural engineering solutions for both public and private sector clients for over 30 years.

We are structural engineers for some of the most notable projects in the San Francisco-Bay Area, including the award-winning Contemporary Jewish Museum, the New San Francisco Main Library, New Acute Care Hospital in Sacramento (under design currently), Specialty Care Building at Highland Hospital, New Data Center, New Lab Building for Department of Energy, Performance Based Seismic Evaluation and Retrofit Design of existing buildings, Terminal-2 at San Francisco International Airport, Warm Springs BART Station, the BART Oakland Airport Connector, New award-winning Recreation Center, and numerous multistory housing buildings serving the needs of the underprivileged.

We have immediate openings for a **Project Engineer (Structural)** and a **Senior Engineer/ Project Manager (Structural)**. Both positions require:

- MS or PhD in Structural Engineering
- Experience in design of steel, concrete and timber structures
- Knowledge of structural analyses programs such as ETABS, SAFE, RAM Concept and Revit
- Knowledge of building design codes and standards such as CBC, ASCE-7, ASCE 41, ACI 318 and AWC SDPWS
- Strong communication and interpersonal skills

Project Engineer position requires minimum of 4-5 years of increasingly responsible experience, PE or SE license in California, and ability to work on multiple projects, responsible for working as part of a team that is responsible for all aspects of engineering analysis and design on project

Project Manager position requires minimum of 8-10 years of experience, PE license required and SE license highly desirable, ability to manage, plan, coordinate multiple projects, work within given project budget, manage and supervise junior staff and Revit technicians, effectively communicate with architect and contractors to understand project and client needs, and responsible for preparation of contract documents and successful delivery of the project

Please email your resume to Badri Prasad, Principal, OLMM@olmm.com.
